

**THE BEST-MOST PRACTICAL
TOILET PARTITION
IN AMERICA**

euroline

Maximum Privacy and Security

No sight lines.
European concealed hardware.

High-pressure laminate, phenolic and solid
surface partitions.

Stainless steel finished aluminum hardware.

euroline

Euroline compartments offer unsurpassed security and privacy achieved with a 6-inch (150 mm) floor clearance and door mounting system that eliminates sight lines. Euroline features stainless steel coated aluminum hardware, tamper resistant fittings and nylon bearings for corrosion resistance. Euroline compartments are available in Classic or Metro style.

Classic

euroline Classic compartment system is an unframed system with a clean look on the top line and concealed angle bracing mounted to infill panels of the same material between door openings.

METRO

euroline Metro compartment system utilizes satin finished aluminum tubing anchored to the top of each stile and braced to all walls with hardware of the same finish. This system would be considered when applications require increased structure and stability but aesthetic lines and looks are demanded.

materials

euroline is available in four different materials:

HIGH PRESSURE LAMINATE

Ampco **euroline** High Pressure Laminate Compartment System

The **euroline** HPL restroom compartment system is designed to present the specifier with maximum choice and flexibility. High pressure decorative laminates provide a wide variety of solid colors, patterns, and finishes. All doors, pilasters and panels have nominal 7/8" (21mm) thickness.

Ampco **euroline** Phenolic Compartment System

The Ampco **euroline** phenolic compartment system is designed for public restroom areas with exceptionally high impact and high humidity conditions. Solid phenolic black core material is thermally fused to a decorative laminate. Polished edges with radius corners enhance the aesthetic appeal without detracting from the high strength and durability of this virtually indestructible material. All Solid Phenolic Core pilasters are 3/4" (19mm) thickness. All doors, panels and screens are 1/2" (12mm) thickness.

Ampco **euroline** Evergreen Compartment Systems

The Ampco **euroline** Evergreen Compartment System is designed for high traffic buildings with exceptionally high impact. Evergreen is virtually indestructible with a graffiti resistant finish and very suitable for wet or highly damp areas. Evergreen compartments are solid color throughout, chamfered and free of milling marks. All Evergreen stiles and doors are 3/4" (19mm) and 1/2" (12mm) panel thickness. Color selection from Evergreen Standard colors.

Ampco **euroline** Solid Surface Compartment System

The Ampco **euroline** solid surface compartment system is designed for applications where practical elegance, rugged durability, and ease of maintenance are important considerations. Features a Class "A" fire rating. All system components are 1/2" (12mm) thickness.

Solid Surface contributes to sustainable building design. It has exceptional durability and extended life cycles, offering a beautiful and cost-effective surface with the added value of reduced waste.

Solid Surface material is nonporous and with proper cleaning it does not support the growth of mold, mildew, and bacteria, these features make solid surface an excellent option for hospitals, hotels and restaurants.

euroline characteristics

Hardware Considerations

All components are constructed of heavy-duty aluminum finished with an attractive and durable powder coating process. Tamper resistant fittings and nylon bearings provide corrosion resistance. Hardware is blister packed to provide easy on-site storage, identification and installation.

Color Combination Option

Contrasting stile and door color selections provide the designer with an endless array of design options to match any decor. The system can allow for use of two or three color patterns, opening the design process to personal a creative touch.

High Quality

euroline compartments are custom made to exacting standards utilizing the finest hardware to compliment any environment. Manufactured to rigorously maintained methods and procedures, the very highest quality standard is assured.

Ease of Installation

All hinge and indicator latch fasteners are pre-drilled at factory minimizing on site installation time. All **euroline** systems are shipped with easy to follow installation instructions that will save time and reduce labor expense.

Simple to Specify

The **euroline** specification guide allows for correct and simple specification.

ITEM #	DESCRIPTION
1i	Pedestal Stainless Steel Finished Aluminum available in 1/2" and 3/4"
2i	Stainless Steel Finished Aluminum L Bracket available in 1/2" and 3/4"
3i	Stainless Steel Finished Aluminum Hinge available in 1/2" and 3/4" Three (3) per door
4i	Outswing Keeper Finished Aluminum
5i	Inswing Keeper Finished Aluminum
6i	Inswing Door Hook Finished Aluminum
7i	Outswing Slide Latch with occupancy indicator Finished Aluminum
8i	Inswing Slide Latch Finished Aluminum
9i	Outswing Door Pull Finished aluminum
