Critical Perspectives on Social Control and Social Regulation in Canada Mitch Daschuk

2020-08-25T00:00:00Z How does social regulation shape who is “deviant” and who is “normal”? Critical Perspectives on Social Control and Social Regulation in Canada is an introduction to the sociology of what has traditionally been called deviance and conformity. This book shifts the focus from individuals labelled deviant to the political and economic processes that shape marginalization, power and exclusion. Class, gender, race and sexuality are the bases for understanding deviance, and it is within these relations of power that the labels “deviant” and “normal” are socially developed and the behaviours of those less powerful become regulated. This textbook introduces readers to theories and critiques of traditional approaches to deviance and conformity. Using vivid and timely examples of contemporary social regulation and control, this textbook brings to life how forces of social control and marginalization interact with social media, sex work, immigration, anti-colonialism, digital surveillance and social movements, and much more. Theories and critiques are clarified with summaries, definitions, rich illustrative examples, discussion questions, recommended resources and test banks for instructors.

Through Training and Education: Understanding the Humanity of Policing is about the people who police; it is about the people police serve. It is about giving the profession a face, a heart, and a personality, focusing on the person as more than a member of a profession and the resident as more than a response to a call.

Effective Crime Reduction Strategies James F. Albrecht 2011-02-22 The International Police Executive Symposium (IPES, www.ipes.info) coordinates annual international conferences to evaluate critical issues in policing and recommend practical solutions to law enforcement executives deployed across the globe. Drawn from the 2005 proceedings hosted by the Czech Republic in Prague, Effective Crime Reduction Strategies: International Perspectives contains contributions from the renowned criminal justice and law enforcement professionals who gathered at this elite annual meeting. Dedicated to continued reduction in crime through local and global response, these international experts share effective crime-fighting principles and tried and proven best practices. Thoroughly revised and updated since the initial proceedings, the reports in this volume are divided into six sections which explore a host of essential topics: Critical Issues in European Law Enforcement: Highlights efforts in Hungary, Austria, and Norway to revise policies and organizational structures to meet the demands of developing events and political pressures Contemporary Concerns: Policing in the United States and Canada: Analyzes the impact of international terrorism and transnational crime on police work Paradigm Shifts: Policing as Democracy Evolves: Evaluates the success of democratic reforms in South Africa, Brazil, Argentina, Nigeria, and Cameroon Revising Traditional Law Enforcement in Asia to Meet Contemporary Demands: Describes how counterterrorism, cultural ideology, and transnational criminal influence affects the traditional nature of policing in New Zealand, Turkey, Indonesia, and Thailand The Positive Influence of Unionization on Police Professionalism: Addresses the impact of police associations on management decision-making and policy development in the United States, Canada, New Zealand, and South Africa Significant Issues Facing

Twenty-First Century Law Enforcement: Focuses on counterterrorism, border and transnational criminality, the measurement of police effectiveness, and the investigation of juvenile crime Supplemented with select papers considered for the official journal of the IPES, this volume represents a thoroughly comparative approach to the challenges police executives face in the 21st century. Exploring a wide range of issues impacting how law enforcement professionals fight crime, experts from virtually all regions of the globe engage in discourse that is destined to shape future policing worldwide.

Policing and Social Media Christopher J. Schneider 2016-04-04 This book investigates various public aspects of the management, use, and control of social media by police agencies in Canada. This book aims to illustrate the process by which new information technology—namely, social media—and related changes in communication formats have affected the public face of policing and police work. Schneider argues that police use of social media has altered institutional public police practices in a manner that is consistent with the logic of social media platforms. Policing is changing to include new ways of conditioning the public, cultivating self-promotion, and expanding social control. While each case study presented here focuses on a different social media platform or format, his concern is less with the particular format per se, as these will undoubtedly change, and more with developing suitable analytical and methodological approaches to understanding contemporary policing practices on social media sites.

Policing in an Age of Reform James J. Nolan 2020-12-07 This book tackles the contentious issue of policing in an age of controversy and uncertainty. It is a timely book written by police scholars — predominantly former practitioners from Europe, Australia and North America — who draw from their own research and operational experiences to illuminate key issues relating to police reform in the present day. While acknowledging some relevance of usual proposed models, such as problem-solving, evidence-based policing and procedural justice, the contributors provide an insider look at a variety of perspectives and approaches to police reform which have emerged in recent decades. It invites university students, criminologists, social scientists, police managers, forensic scientists to question and adapt their perspectives on a broad range of topics such as community policing, hate crime, Islamic radicalisation, neighborhood dynamics, situational policing, antidiscrimination and civil society, police ethics, performance measures, and advances in forensic science, technology, intelligence and more in an accessible and comprehensive manner.

Beyond Community Policing James J. Chriss 2015-12-03 Beyond Community Policing uses history and general sociological theory to examine the trajectory of municipal policing from Britain in the 1830s to its adoption and evolution in the America. By analysing the uncertain and uneven historical development of policing, this book illustrates in great detail the functional connections between cities (or communities) and police departments. Chriss also considers the development of municipal policing in the American West between 1850 and 1890, which helps to situate the current discussion of policing in the post 9/11 United States.

Neighborhood Emily Talen 2018-12-27 The term neighborhood has been reduced to a word for a convenient geographical locator. In fact, most cities claim to be compiled of neighborhoods, but this strays far from the term's original meaning - a spatial unit that people relate to. Neighborhood seeks to dispel this common misconception by integrating a complex historical record and multidisciplinary literature to produce a singular resource for understanding what is meant by neighborhood. Emily Talen provides a multi-dimensional, comprehensive view of what neighborhoods signify how they're idealized and measured, and what their historical progression has been. Talen balances perspectives from sociology, urban history, urban planning, and sustainability among others in efforts to make neighborhoods compatible with 21st century ideals. If neighborhoods are going to play a role in the future of the city, we need to know what and where they are in a more meaningful way. Neighborhoods need to be more than a label and more than a social segregator. For those living in the undefined expanse of contemporary urbanism-which characterizes most of American cities-can the neighborhood come to be more than a shaded area on a map?

The Big Nowhere James Ellroy 2013-01-01 The D. A.'s brass, a sheriff's deputy, and a rough-and-tumble bagman are unknowingly chasing a nightmare in this thrilling novel from the author of "some of the most powerful crime novels ever written" (New York Times). Los Angeles, 1950 Red crosscurrents: the Commie Scare and a string of brutal mutilation killings. Gangland intrigue and Hollywood sleaze. Three cops caught in a hellish web of ambition, perversion, and deceit. Danny Upshaw is a Sheriff's deputy stuck with a bunch of snuffs nobody cares about; they're his chance to make his name as a cop...and to sate his darkest curiosities. Mal Considine is D.A.'s Bureau brass. He's climbing on the Red Scare bandwagon to advance his career and to gain custody of his adopted son, a child he saved from the horror of postwar Europe. Buzz Meeks-bagman, ex-Narco goon, and pimp for Howard Hughes-is fighting communism for the money. All three men have purchased tickets to a nightmare.

Encyclopedia of Police Science Jack Raymond Greene 2006-10-23 In 1996, Garland published the second edition of the Encyclopedia of Police Science, edited by the late William G. Bailey. The work covered all the major sectors of policing in the US. Since then much research has been done on policing issues, and there have been significant changes in techniques and in the American police system. Technological advances have refined and generated methods of investigation. Political events, such as the terrorist attacks of September 11, 2001 in the United States, have created new policing needs while affecting public opinion about law enforcement. These developments appear in the third, expanded edition of the Encyclopedia of Police Science. 380 entries examine the theoretical and practical aspects of law enforcement, discussing past and present practices. The added coverage makes the Encyclopedia more comprehensive with a greater focus on today's policing issues. Also added are themes such as accountability, the culture of police, and the legal framework that affects police decision. New topics discuss recent issues, such as Internet and crime, international terrorism, airport safety, or racial profiling. Entries are contributed by scholars as well as experts working in police departments, crime labs, and various fields of policing.

Essentials of Criminal Justice Larry J. Siegel 2016-01-01 ESSENTIALS OF CRIMINAL JUSTICE, Tenth Edition, is uniquely attuned to the needs of today's students and instructors. This brief introduction to the criminal justice system provides students with thorough, objective coverage of all the latest research in the

field, cutting-edge topical and case discussions, and the richest examination of career options to be found in a criminal justice text -- all in fewer than 500 pages. The text is ideal for those who want the proven reliability of Siegel and Worrall's authorship in a shorter, paperback presentation. Impeccable scholarship is made accessible through the use of integrated learning objectives, plentiful visuals, and a unique Reality Check theme designed to disabuse students of the incorrect notions, perceptions, and biases they bring to the class. A unique focus on understanding ethical issues gives students opportunities to grapple with ethical concerns faced by agents of the criminal justice system in their professional lives. Extensive author, subject and place name indexes are provided in both English and French.

Situational Policing James J. Nolan 2008-03 A recent study explored whether community policing (CP) could work in different types of neighborhoods. The analysis found it successful in some communities, but not in others. Of the 15 participating Chicago police beats, the researchers rated 9 excellent & 6 struggling. The research question itself garners even more interest for it suggests that CP should have similar benefits in different types of neighborhoods. The authors present a theoretical framework to help police decide what type of CP strategy could work best in specific neighborhoods. Through the Situational Policing Model, the authors present a clear & observable desired end state for officers as they work to respond to neighborhood crime & disorder. Illustrations.

Introduction to Criminal Justice Larry J. Siegel 2015-01-01 One of the few bestselling introductory criminal justice texts written by professors who actively teach the course to large numbers of undergraduates each year, INTRODUCTION TO CRIMINAL JUSTICE is uniquely attuned to the needs of today's students and instructors. Now in its fifteenth edition and known for its authoritative, solidly researched content, Siegel and Worrall's text delivers comprehensive, cutting-edge coverage of criminal justice. Extremely student friendly, the text's balanced and objective presentation is packed with provocative real-world examples and the latest developments from the field. Crisp writing, complemented by vivid illustrations, deftly guides readers through the intricate workings of the police, courts, and correctional systems; the concepts and processes of justice; and key policy issues. The book also includes an emphasis on today's criminal justice careers, offering insights from numerous professionals on the rewards and realities of their jobs. Interpretation James Nolan 2012-10-09 In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.

Engaging Faculty in Group-Level Change for Institutional Transformation J. Kasi Jackson 2023-05-17 Diversifying the academic faculty remains an elusive goal marked by slow and uneven progress. This book describes an effective model for institutional transformation which is uniquely grounded in group-level processes. Efforts at institutional transformation continue to center individual actors. This is evident in the proliferation of programs that train individuals on implicit bias, search strategies, and other diversity and inclusion-based content as solutions for inequities in academia. Acknowledging the value of these approaches, this book adds a new focus: group-level processes. It unifies research on gender and racial inequity with concepts from social psychological theories of group dynamics to present a model of change centered on professional adult learners, including faculty and academic staff. The book details the implementation of group-level processes based on insights from the learning sciences, higher education leadership, communication studies, and group facilitation to instill norms for a more equitable and inclusive institution. Drawing on quantitative and qualitative data to illustrate the impact of group-level initiatives, the book offers recommendations to enable the application of this model in higher education contexts. This book will be of interest to researchers and graduate students studying institutional transformation, academic social justice leadership, and faculty professional development and to those interested in integrating justice and equity into team science, translational research, and other trans-, inter-, and multi-disciplinary fields.

Resolving Community Conflicts and Problems Roger A. Lohmann 2011 Roger A. Lohmann is emeritus professor of social work at West Virginia University, where he was the founder of the Nova Institute. He is also president of the theory section of the Association for Research on Nonprofit Organizations and Voluntary Action (ARNOVA), former editor of the *Nonprofit Management and Leadership Journal*, and the author of numerous publications, including *Breaking Even: Financial Management in Nonprofit Human Services* and *The Commons: New Perspectives on Nonprofit Organizations, Voluntary Action, and Philanthropy*. --

Resolving Community Conflicts and Problems Roger A. Lohmann 2011-10-18 Public deliberation and group discussion can strengthen the foundations of civil society, even when the groups engaged in debate share a history of animosity. Scholars have begun to study the dialogue sustaining these conversations, especially its power to unite and divide groups and individuals. The twenty-four essays in this collection analyze public exchanges and the nature of sustained dialogue within the context of race relations, social justice, ethnic conflicts, public-safety issues, public management, community design, and family therapy. They particularly focus on college campuses and the networks of organizations and actors that have found success there. Open discussion may seem like an idealistic if not foolhardy gesture in such milieus, yet in fact the practice proves crucial to establishing and reinforcing civic harmony.
