The Sibylline Oracles (Annotated Edition) Milton S. Terry 2012 This is the extended and annotated edition including * an extensive annotation of almost 10.000 words about the oracles in religion * an interactive table-of-contents * perfect formatting for electronic reading devices THE Sibyls occupy a conspicuous place in the traditions and history of ancient Greece and Rome. Their fame was spread abroad long before the beginning of the Christian era. Heraclitus of Ephesus, five centuries before Christ, compared himself to the Sibyl "who, speaking with inspired mouth, without a smile, without ornament, and without perfume, penetrates through centuries by the power of the gods." The ancient traditions vary in reporting the number and the names of these weird prophetesses, and much of what has been handed down to us is legendary. But whatever opinion one may hold respecting the various legends, there can be little doubt that a collection of Sibylline Oracles was at one time preserved at Rome. There are, moreover, various oracles, purporting to have been written by ancient Sibyls, found in the writings of Pausanias, Plutarch, Livy, and in other Greek and Latin authors. Whether any of these citations formed a portion of the Sibylline books once kept in Rome we cannot now determine; but the Roman capitol was destroyed by fire in the time of Sulla (B. C. 84), and again in the time of Vespasian (A. D. 69), and whatever books were at those dates kept therein doubtless perished in the flames. It is said by some of the ancients that a subsequent collection of oracles was made, but, if so, there is now no certainty that any fragments of them remain.

The Authentic Death and Contentious Afterlife of Pat Garrett and Billy the Kid Paul Seydor 2015-02-15 Long before Sam Peckinpah finished shooting his 1973 Western, Pat Garrett and Billy the Kid, there was open warfare between him and the studio. In this scrupulously researched new book Paul Seydor reconstructs the riveting history of a brilliant director fighting to preserve an artistic vision while wrestling with his own self-destructive demons. Meticulously comparing the film five extant versions, Seydor documents why none is definitive, including the 2005 Special Edition, for which he served as consultant. Viewing Peckinpah's last Western from a variety of fresh perspectives, Seydor establishes a nearly direct line from the book Garrett wrote after he killed Billy the Kid to Peckinpah's film ninety-one years later and shows how, even with directors as singular as this one, filmmaking is a collaborative medium. Art, business, history, genius, and ego all collide in this story of a great director navigating the treacherous waters of collaboration, compromise, and commerce to create a flawed but enduringly powerful masterpiece.

The Idea Factory Jon Gertner 2013-02-26 The definitive history of America's greatest incubator of innovation and the birthplace of some of the 20th century's most influential technologies "Filled with colorful characters and inspiring lessons . . . The Idea Factory explores one of the most critical issues of our time: What causes innovation?" —Walter Isaacson, The New York Times Book Review "Compelling . . . Gertner's book offers fascinating evidence for those seeking to understand how a society should best invest its research resources." —The Wall Street Journal From its beginnings in the 1920s until its demise in the 1980s, Bell Labs-officially, the research and development wing of AT&T-was the biggest, and arguably the best, laboratory for new ideas in the world. From the transistor to the laser, from digital communications to cellular telephony, it's hard to find an aspect of modern life that hasn't been touched by Bell Labs. In The Idea Factory, Jon Gertner traces the origins of some of the twentieth century's most important inventions and delivers a riveting and heretofore untold chapter of American history. At its heart this is a story about the life and work of a small group of brilliant and eccentric men-Mervin Kelly, Bill Shockley, Claude Shannon, John Pierce, and Bill Baker-who spent their careers at Bell Labs. Today, when the drive to invent has become a mantra, Bell Labs offers us a way to enrich our understanding of the challenges and solutions to technological innovation. Here, after all, was where the foundational ideas on the management of innovation were born.

Observing America Robert Frankel 2007-01-05 Beginning with Alexis de Tocqueville and Frances Trollope, visitors to America have written some of the most penetrating and, occasionally, scathing commentaries on U.S. politics and culture. *Observing America* focuses on four of the most insightful British commentators on America between 1890 and 1950. The colorful journalist W. T. Stead championed Anglo-American unity while plunging into reform efforts in Chicago. The versatile writer H. G. Wells fiercely criticized capitalist America but found reason for hope in the administrations of Theodore Roosevelt and Franklin Roosevelt. G. K. Chesterton, one of England's great men of letters, urged Americans to preserve the vestiges of Jeffersonian democracy that he still discerned in the small towns of the heartland. And the influential political theorist and activist Harold Laski assailed the business ethos that he believed dominated the nation, especially after Franklin Roosevelt's death. Robert Frankel examines the New World experiences of these commentators and the books they wrote about America. He also probes similar writings by other prominent observers from the British Isles, including Beatrice Webb, Rudyard Kipling, and George Bernard Shaw. The result is a book that offers keen insights into America's national identity in a time of vast political and cultural change.

High Noon Glenn Frankel 2018-02-06 From the New York Times bestselling author of *The Searchers*, the revelatory story behind the classic movie *High Noon* and the toxic political climate in which it was created. It's one of the most revered movies of Hollywood's golden era. Starring screen legend Gary Cooper and Grace Kelly in her first significant film role, *High Noon* was shot on a lean budget over just thirty-two days but achieved instant box-office and critical success. It won four Academy Awards in 1953, including a best actor win for Cooper. And it became a cultural touchstone, often cited by politicians as a favorite film, celebrating moral fortitude. Yet what has been often overlooked is that *High Noon* was made during the height of the Hollywood blacklist, a time of political inquisition and personal betrayal. In the middle of the film shoot, screenwriter Carl Foreman was forced to testify before the House Committee on Un-American Activities about his former membership in the Communist Party. Refusing to name names, he was eventually blacklisted and fled the United States. (His co-authored screenplay for another classic, *The Bridge on the River Kwai*, went uncredited in 1957.) Examined in light of Foreman's testimony, *High Noon's*

emphasis on courage and loyalty takes on deeper meaning and importance. In this book, Pulitzer Prize-winning journalist Glenn Frankel tells the story of the making of a great American Western, exploring how Carl Foreman's concept of High Noon evolved from idea to first draft to final script, taking on allegorical weight. Both the classic film and its turbulent political times emerge newly illuminated.

"If They Move . . . Kill 'Em!" David Weddle 2016-03-29 "A probing biography of the enfant terrible of 1960s and 1970s film-making . . . exhaustive and endlessly intriguing." —Booklist Written by the film critic and historian David Weddle, this fascinating account does critical justice to an important body of cinema as it spins the tale of David Samuel Peckinpah's dramatic, overcharged life and the turbulent times through which he moved. Sam Peckinpah was born into a clan of lumberjacks, cattle ranchers, and frontier lawyers. After a hitch with the Marines, he made his way to Hollywood, where he worked on a string of low-budget features. In 1955 he began writing scripts for *Gunsmoke*; in less than a year he was one of the hottest writers in television, with two classic series, *The Rifleman* and *The Westerner*, to his credit. From there he went on to direct a phenomenal series of features, including *Ride the High Country*, *Straw Dogs*, *The Getaway*, *Pat Garrett and Billy the Kid*, and *The Wild Bunch*. Peckinpah was both a hopeless romantic and a grim nihilist, a filmmaker who defined his era as much as he was shaped by it. Rising to prominence in the social and political upheaval of the late sixties and early seventies, Peckinpah and his generation of directors—Stanley Kubrick, Arthur Penn, Robert Altman—broke with convention and turned the traditional genres of Western, science fiction, war, and detective movies inside out. No other era in Hollywood has matched it for sheer energy, audacity, and originality; no one cut a wider path through that time than Sam Peckinpah. "Groundbreaking." —Michael Sragow, *The Atlantic*
