Ethnology, Myth and Politics
Dunja Rihtman-Augustin
2017-07-05 The book offers a
critical overview of Croatian

A Serbian Village In Historical Perspective Joel Martin Halpern

ethnology written by the most prominent Croatian ethnologist/ anthropologist in the second half of the 20th century - Dunja Rihtman-Augustin (recently deceased). She was the first Croatian ethnologist to break with the long established tradition of diffusionist (culture area) studies of her contemporaries and start to anthropologize Croatian ethnology. This book, compiled and completed by Jasna Capo Zmegac, highlights some crucial remarks with regard to the relationship between ethnology and politics. They are formulated as a series of research questions and problems, including: the role of folk culture as mythomoteur, cannonization of the folk culture, nationalization of the peasants in the 19th century and the role of ethnology. This vividly written text offers an exceptional insight into Croatian ethnological developments in the past century, as well as into crucial ruptures in Croatian society which have had important repercussions on ethnological

discipline.

Folk Dance and the Creation of National Identities Anthony Shay 2023-03-28 This book is about the folk: the folk in folk dance, the folk in folklore, the folk in folk wisdom. When we see folk dance on the stage or in a tourist setting, which is the way in which many of us experience folk dance, the question arises are these the "real folk" performing their authentic dances? Or are they urban, well trained, carefully-rehearsed professional dancers who make their livelihood as representatives of a specific nation-state acting as the folk? Or something in between? This study delves more deeply into the folk, their origins, their identities in order to know the source of inspiration for ethno identity dances - dances prepared for the stage and the ballroom and for public performances from ballet, state folk dance ensembles and their amateur emulators, immigrant folk dance group performances, and tourist presentations. These dances,

A Serbian Village In Historical Perspective Joel Martin Halpern

unlike modern dance, ballet, or most vernacular dances, always have strong ethnic references. It will also look at a gallery of choreographers and artistic directors across a wide spectrum of dance genres.

Neighbors at War: Anthropological Perspectives on Yugoslav Ethnicity, Culture, and History Before the former Yugoslavia was divided by wars, its inhabitants successfully lived side by side in peace. This collection seeks to explain how former neighbors became enemies,

with the hope that understanding what drove these peoples apart will help us discover ways for them to coexist in peace again. Contributors analyze political cartoons, psychiatry, the arts, visual media, and law to present a diversity of views on the conflicts in Yugoslavia. While the chapters in this book deal with regional developments, they are not so much focused on politics as they are concerned with how values and attitudes are altered and new identities formed. Thus, this volume goes beyond recent journalistic accounts and should remain relevant for years to come. This book began as a special issue of the journal *Anthropology of East Europe Review*. Most of the contributors to that issue have revised their chapters for this collection, and new chapters have been added, including one on the recent war in Kosovo. Essays range across all of former Yugoslavia, emphasizing the variability and diversity of ethnic relations throughout its history.

Migrants in Europe Hans Buechler 1987-10-20 Although studies have been made of individual aspects of the problem, this volume is the first to provide a comprehensive overview of both the theoretical issues and the scope and variety of present-day migratory movements in Europe, together with their historical antecedents. In his introduction, Hans Buechler reviews significant previous research and outlines the theoretical framework of the

present volume. The primary focus of the chapters that follow is the experience of migrants and of household members who remain at home, analyzed within the total context of migration in both host and sender countries. The effects of migration on family economy and kin relationships are examined in detail. Among the issues explored are economic decision-making processes in migrant households, the implications of migration for family landholding, ties between migrants and family left behind, and kin, friendship, and neighborhood networks. Other topics considered are the working and social environment experienced by migrants; labor policies and restrictions relating to employment, work permits, and workers' families; and the problems connected with returning home. The final section, a bibliographic essay by Judith-Maria Buechler, helps to put the various individual contributions in a wider perspective.

Designing Tito's Capital Brigitte Le Normand 2014-07-16 A major influence was modernist Le Corbusier and his Athens Charter published in 1943, which called for the total reconstruction of European cities, transforming them into compact and verdant vertical cities unfettered by slumlords, private interests, and traffic congestion. As Yugoslavia transitioned toward self-management and market socialism, the functionalist district of New Belgrade and its modern living were lauded as the model city of socialist man. The glow of the utopian ideal would fade by the 1960s, when market socialism had raised expectations for living standards and the government

was eager for inhabitants to finance their own housing. By 1972, a new master plan emerged under Aleksandar Đorđević, fashioned with the assistance of American experts. Espousing current theories about systems and rational process planning and using cutting edge computer technology, the new plan left behind the dream for a functionalist Belgrade and instead focused on managing growth trends.

Emotions, Senses and Affects in the Context of Southeast Europe Klaus Roth

A Serbian Village In Historical Perspective Joel Martin

Halpern

This volume focuses on emotions of people in Southeast Europe. Grief and sadness take on different forms of expression. In the era of socialist rule laughter could express political resistance; for labour migrants visiting their country of origin evokes feelings of being at home. Cities attract visitors by appealing to emotions and people try to relive times of national glory by historical re-enactments. Gossip is a means of expressing emotions, smells and rituals become expressions of remembered emotions. Emotions are a factor researchers must always take seriously, both of the people studied and their own.

How to Read Signs and Omens in Everyday Life

Sarvananda Bluestone

2001-10-01 Discover your psychic powers and learn to use the wonders of nature and the world around you as magical tools of divination. • Practical and enjoyable exercises help readers reconnect with their innate psychic sensitivity. • Includes 75 methods and practices of divination from around the world. Since the beginning of time, diviners and seers have been finding signs and omens in the world around them--in pools of water, tea leaves, delicate patterns of cracked animal bones, and the ripples of clouds in the sky. Because these observers have been able to tap into a deeper level of

awareness, they have come to sense hidden truths in powerful and mysterious ways. In modern times we call those who possess these abilities "psychic," but native cultures accepted that each of us has an innate sixth sense and can learn how to read the forces of nature that appear before us. In this fascinating and enlightening guide, historian and psychic Sarvananda Bluestone shows us how our innate knowledge can be rediscovered, allowing us to become far more in tune with our surroundings than we ever dreamed possible. He teaches us to use everyday objects and the wonders of nature as magical tools that offer a window into the future--and ourselves. Whether watching birds cross the morning sky or divining the subtle energies of the earth, you will see the world in an entirely new light. Filled with practical exercises, *How to Read Signs and Omens in Everyday Life* demonstrates how the discovery of the power within ourselves requires nothing more than a little

The Folklore of World

Holidays Margaret Read

MacDonald 1992 The stories of some 340 holidays from over 150 countries are told, wherever possible, in quotations from books, journals, biographies, and other firsthand accounts by people who actually celebrate the holidays in their own homes. Additional information is furnished by folklorists and anthropologists. Especially strong is the treatment of non-European countries, scantily represented heretofore in the reference literature.

Arrangement is according to the Gregorian Calendar, January 1 to December 31 (the introduction explains the origins and organization of this and other calendrical systems). A single index combines ethnic, subject, and geographic entries. Annotation copyrighted by Book News, Inc., Portland, OR

A History of Yugoslavia Marie-

Janine Calic 2019-02-15 Why did Yugoslavia fall apart? Was its violent demise inevitable? Did its population simply fall victim to the lure of nationalism? How did this multinational state survive for so long, and where do we situate the short life of Yugoslavia in the long history of Europe in the twentieth century? *A History of Yugoslavia* provides a concise, accessible, comprehensive synthesis of the political, cultural, social, and economic life of Yugoslavia—from its nineteenth-century South Slavic origins to the bloody demise of the multinational state of Yugoslavia in the 1990s. Calic takes a fresh and

innovative look at the colorful, multifaceted, and complex history of Yugoslavia, emphasizing major social, economic, and intellectual changes from the turn of the twentieth century and the transition to modern industrialized mass society. She traces the origins of ethnic, religious, and cultural divisions, applying the latest social science approaches, and drawing on the breadth of recent state-of-the-art literature, to present a balanced interpretation of events that takes into account the differing perceptions and interests of the actors involved. Uniquely, Calic frames the history of Yugoslavia for readers as an essentially open-ended process, undertaken from a variety of different regional perspectives with varied composite agenda. She shuns traditional, deterministic explanations that notorious Balkan hatreds or any other kind of exceptionalism are to blame for Yugoslavia's demise, and along the way she highlights the agency of

twentieth-century modern mass society in the politicization of differences. While analyzing nuanced political and social-economic processes, Calic describes the experiences and emotions of ordinary people in a vivid way. As a result, her groundbreaking work provides scholars and learned readers alike with an accessible, trenchant, and authoritative introduction to Yugoslavia's complex history.
